Banquet to Honor 54 High School Athletes Monday

**George Wilson, Chicago
Bears Capt., to Be
Speaker**

More than 50 Antioch High school athletes will be entertained by the Antioch Lions Club at the Annual Athletic banquet to be held Monday, March 11, at the high school.

Dan S. Boyer will act as toastmaster and will introduce George Wilson, Captain of the Chicago Bears football team, the principal speaker. Others who will appear on the program will include, A. welcome address by Harry J. Krueger, Lions club president; Response to welcome by Ralph Trieger, "A" club president; Remarks by George B. Bartlett, Village president; Remarks by Walter K. Hills, president of the high school board of education, and the presentation of the "A" awards for the athletes as well as remarks concerning athletic activities at the school by Coach M. R. Krizan.

The dinner will be in charge of Miss Ethel Dixon, home economics instructor at the school, and decorations will be arranged for by Miss J. Krueger, also a member of the high school faculty. Hans Von Holwede will be in charge of music for the event.

Lions club committee in charge includes Dr. Frank Keefe, James McMillen, Roman B. Vos and Arthur Trieger.

Swayer Will Urge End of Subsidies at 21st PMA Meet

**Hobson, U. of W. Expert To
Give Main Talk On
March 12**

Eliminate subsidies and put dairying on a sound basis. That will be the central theme of Pure Milk Association's 21st annual meeting on March 12. Members who attend the all-day meeting in Chicago will hear PMA president Wilbur J. Swayer reiterate the Association's conviction that subsidies are unsound and their result degenerative to agriculture as well as to consumers. Guest speaker on the morning session will be Dr. Asher Hobson, head of the University of Wisconsin Agricultural Economics Department. Dr. Hobson will discuss "The Agricultural Situation as I See It."

Nearly 300 of the fifteen hundred members expected to attend the meeting will be voting delegates appointed by dairy farmer in each Local. Delegates named from District 7 (Lake county) are: George Leikam and Leonard Kraus, both of Prairie View; John G. Wirtz and Park Allan, Mundelein; Wm. Brockman and Ralph Porep, Palatine; R. E. Hook and Robert Bandli, both of Gurnee; Wm. Barthel, Salem; George G. Lecher, Lake Villa; Oscar Nelson, Libertyville; Clarence Sneltinger, Barrington; W. A. Carlson, Lake Zurich; Avery Vose, Antioch; Chas. G. Brainard, Round Lake; and Raymond W. Lusk, Melleny.

Legion Auxiliary Starts 1946 Drive For New Members

The American Legion Auxiliary is launching its annual drive for new members. It is announced this week by Mrs. Frank Kennedy, membership chairman.

Special emphasis is being placed on the drive in an effort to welcome members of World War II veterans' families into the organization. Mrs. Kennedy stated that all members of the returning servicemen's families are eligible for membership as soon as the men become members of the American Legion.

Next meeting of the auxiliary will feature the initiation of a group of new candidates. The meeting will be held at the Legion hall on Friday evening, March 8.

Nina Matthisen Popular Speaker On North Shore

Mrs. A. F. Matthisen, of Chicago and State Line Road, Antioch, has been very busy in Bahai' circles, according to a letter received here this week. Speaking and radio talk engagements include Milwaukee, Oshkosh and Green Bay, Wisconsin. She will speak in Oshkosh on March 12, before the Kiwanis club at noon and the Business and Professional Women's club in the evening. During the last of the month she will appear in Urbana and other towns nearby.

Edw. Jacobs Resumes Law Practice Here

Edw. Jacobs, Lieut. U. S. Navy, returned to Antioch this week on terminal leave and has resumed his law practice. He will occupy the same offices which he used before in the Krueger office at 390 Lake street.

John Logan Boyles, who has been "pinch-hitting" for Jacobs during his 23 months of service, will no longer practice law in Antioch.

Jacobs served as supply officer and later as executive officer aboard a L. S. T. during the time he was in service. He expects his discharge to come through about April 21.

News of the Boys in Service

John V. Horton, of Antioch, a former Staff Sergeant with the corps of Engineers serving with the 96th Infantry Division was presented with a Bronze Star medal by 1st Lt. Bernard J. French of the Waukegan Recruiting Station in a ceremony at his home. The citation, which accompanied the medal read as follows:

BRONZE STAR MEDAL

"For heroic service in connection with military operations against the enemy on April 7, 1945. Staff Sergeant Horton, a platoon sergeant in Combat Engineers Battalion, took a twelve man party to reconnoiter a reported enemy minefield immediately to the rear of our lines. After the successful reconnoitering of the area, Staff Sergeant Horton took his platoon into the mined area and working at the head of the party proceeded to clear the field. Four times during the operation Staff Sergeant Horton was forced to withdraw his men because of heavy enemy mortar fire in the sector of operations. The courage and extreme coolness of Staff Sergeant Horton gave his men a sense of confidence that enabled them to complete their mission rapidly and without a casualty. Sharing the hazards of the mission with his men and with their welfare always in mind, the leadership and devotion to duty demonstrated by Staff Sergeant Horton reflects great credit upon himself and the military service."

Many From Here In Hospitals

Sickness of various sorts seems to be on the upgrade among Antioch people during the past week or so with a great many being hospitalized this week.

Mrs. Anna Kelly, North Main Street, suffered a heart attack on Friday of last week and was taken to St. Therese hospital by the Antioch Rescue squad. Oxygen was administered during the night at the hospital and her condition, although still serious, is believed to be improving.

Mrs. Otto S. Klass underwent a major operation on Monday at St. Luke's hospital, Chicago. She is reported to have withstood the operation well and is improving rapidly.

Mrs. Helen Carlson underwent an emergency appendectomy at the Illinois Masonic hospital in Chicago, Friday. Latest reports on her condition indicate that she is improving.

Mrs. Henry Herman, North Avenue, Antioch, was taken to the St. Therese hospital, Waukegan, where she will remain for observation.

Mrs. Mollie Sommerville was taken to St. Therese hospital Monday.

Beamer To Address Farmers At Mastitis Meeting Fri., Mar. 8

"How to Clean up Mastitis From Your Dairy Herd" will be the subject of a meeting to be held at the Farm Bureau office in Grayslake from 1:00 to 3:00 p. m. on Friday, March 8th. All Lake County dairymen are invited to attend this meeting. This meeting has been arranged by Ray T. Nicholas, Lake County Farm Adviser, to help dairymen in controlling one of the most costly diseases in their herds.

Dr. Paul Beamer, project assistant for the mastitis control program in Northeastern Illinois, and one who has probably had more experience in working with dairymen on mastitis problems than anyone else in this area will be the principal speaker. Several dairymen in Lake County who have been cooperators under Dr. Beamer's supervision the past year or two will relate their experiences in controlling and eliminating mastitis. A special motion picture on mastitis prepared by the Veterinary Department of the College of Agriculture will also be shown.

This meeting is open to all who wish to attend.

Mr. and Mrs. Robert Wilton spent Monday in Elgin.

Kutil Reports Brighter Future for Poultrymen

**Large Purchases of Poultry
and Eggs Will Support
Market**

The anticipated drop in poultry and egg prices may not materialize this spring, according to C. L. Kutil, agricultural instructor at Antioch township high school and a keen observer of poultry and livestock trends, if foreign purchases of poultry and egg products are kept at levels near those of 1945.

In a story released to the news today he said, "A month ago a surplus of 20 million cases of eggs this spring had us all worried. Now apparently the eggs we thought were going to be surplus are going to be in demand and a bright future is pictured for the poultry business."

There is an enormous demand for meat products, and in the face of world famine it looks as if we shall need all the food we can get.

Recently, Great Britain has announced that she has arranged to buy another 12,000 tons of dried eggs from the United States; she is negotiating for an additional 6,000 tons and hopes to get still another 3,000 tons. This would bring the 1946 total to 21,000 tons as compared to 30,000 tons last year.

Another item of interest to the American poultrymen is that Czechoslovakia has purchased 400,000 hatching eggs and considerable breeding stock from the U. S."

Antioch Fire Dept. Called out Twice Sunday, March 3

The opening of the "busy" season for the Antioch Fire Dept., which is always expected about this time of year came Sunday with two calls. The first was caused by a bonfire which got out of control at a cottage owned by Jack Crandall in Smith's subdivision, just west of Smart's farm. The fire, which caught in hay which had been placed around the foundation of the cottage, caused several hundred dollars worth of damage to one end of the building.

The second call, which was caused by a small roof fire in the home of Burt Anderson, Orchard street, caused only slight damage, due to quick action by the fire department. The sparks from the chimney are believed to have been responsible for the blaze.

Chief Lou. Van Patten of the department said that the grass fire season would erupt the first dry Sunday and said that fire of this nature could be expected any time if present weather conditions continue. This situation will be complicated by the fact that all frost is now out of the ground, making it difficult to get heavy equipment to the scene of the fires. He urged extreme caution around fields where old hay and grass are standing and asked the cooperation of all residents of the region in helping to curb the fire danger.

Services Held For Thomas Perkins, Tues.

Thomas Perkins, 81, died Sunday at his home at Indian Point, where he had made his home for the past twenty-five years. He had been ill only a short time.

Funeral services were held Tuesday afternoon from Skeels-Biddle Chapel, 7838 Cottage Grove Avenue, Chicago, with burial in Mt. Hope cemetery.

He was born February 1, 1865, the son of Thomas and Maria Perkins. He was a member of Mizpah Lodge A. F. A. M. No. 768 of Chicago, who had charge of the funeral services.

He retired in 1922 as a master mechanic for Libby McNeill and Libby Company in Chicago and previous to coming to Antioch he made his home in Chicago.

He is survived by his wife, Margaret, two daughters, Mrs. Gertrude Croddy and Miss Isla Perkins, a son Norman Perkins, a brother Richard Perkins and five grandchildren, all of Chicago.

Lake Co. Home Bureau Holds Annual Tea

Ninety-four new members and their sixty-six sponsors were entertained at the Annual Membership Tea held Monday, March 4, at the Sheridan Road U. S. O., Waukegan.

Mrs. Carl Fink, county membership chairman, introduced the new members and their sponsors, and called special attention to those who had secured three new members.

KNOCKING HIMSELF OUT

B. Clayton Hamlin Offers Fine Record as Police Officer

**Republican Candidate For
Sheriff Submits Fine
Record To Voters**

Twenty years ago B. Clayton (Barney) Hamlin, of Lake Villa, started his career as a police officer, since that time he has served with the Lake County sheriff's office, as police officer for the village of Lake Villa, the city of Barrington, the State of Illinois, where he served as special automobile investigator for four years under the secretary of state and finally with the state police where he was given the grade of Lieutenant and was promoted to Captain several years ago. He resigned from the state police force on November 21 in order to avoid making the campaign for sheriff of Lake county at the taxpayers' expense.

Hamlin was born in Lake Villa in 1900 and attended Lake Villa grade school, Antioch Township high school and Racine College. After receiving his degree from the college he enlisted in the U. S. Army and served for three years with the army of occupation in Germany after World War I.

Upon his return to the United States he served as a deputy sheriff under Sheriff Ed. Ahlstrom and Sheriff Doolittle, and is thoroughly familiar with all phases of the operation of the Lake county sheriff's office.

Hamlin's excellent record and all around experience qualify him for the office of sheriff and he is seeking the Republican nomination subject to the will of the voters. Since he is well known throughout the county it is expected that he will give a good account of himself at the polls on April 9th.

Mrs. Hattie Reekers Dies Friday at Son's Home

Mrs. Hattie Reekers, 71, died Friday, March 1, at 5:45 p. m., at the home of her son, Preston Reekers, at Channel Lake.

Funeral services were held Tuesday afternoon at 2:30 from the Strang Funeral home. The Antioch Chapter Order Eastern Star assisted by the Rev. Warren C. Henslee officiated at the services. Burial in Hillside cemetery.

She was born March 22, 1874 in Southgate, Kentucky, the daughter of George and Nettie Johnson.

She was a member of Imperial Chapter O. E. S. No. 846 and of W. B. A. Review 12 of Chicago.

She is survived by her son Preston, two brothers, Edward Johnson of Cincinnati, Albert S. Johnson of Youngstown, Ohio and a sister, Mrs. Susan Welter of Carthage, Ohio and four grandchildren.

Miss Minnie Solis was elected president of the Royal Neighbor officers club at meeting held at the home of Mrs. Louis Horton Tuesday evening. Mrs. Gladys Wilton was chosen Secretary and treasurer. The out going officers were Mrs. O. S. Klass, president and Mrs. Addie Zimmerman, secretary and treasurer. Following the meeting several games of 500 were played and a luncheon served. Mrs. Walter Hills assisted Mrs. Horton on the committee.

Legion Dance Saturday Attracts Large Crowd

The American Legion Posts costume dance held last Saturday evening at the Legion hall was attended by a large crowd of merry-makers. John L. Horan, service officer of the post, reports that the affair was outstandingly successful, both from a financial and entertainment standpoint.

Prizes were awarded for the best dressed couples, with Mr. and Mrs. James McMillen taking first honors, and music was furnished by Sexton's orchestra, of Waukegan.

Rescue Squad Answers Three Calls This Week

The Antioch Rescue squad answered three calls during the week. The first occurred last Thursday when Eddie Babor of State Line road slipped on the ice and sustained a broken ankle. He had been at home for several days after the accident and the squad took him to Victory Memorial hospital, Waukegan.

On Monday, March 4 the squad was called to the home of Mrs. Anna Kelly to administer oxygen. She had suffered a heart attack and was in a very serious condition. The squad administered oxygen until 5 a. m. Tuesday and then set up an auxiliary unit while the S. O. S. unit was installed in the truck for the trip to St. Therese hospital, Waukegan. The squad supply of oxygen was exhausted and several additional tanks were secured from the Antioch garage.

Mrs. Mollie Sommerville was transported to a Waukegan hospital by the Antioch Rescue squad on Monday also.

Three members of the squad completed the instructors course in Waukegan this week. The new instructors are William Baned, Morris Pickus and Henry Rentner. The newly qualified instructors said that many changes in methods have been made during the past few years and urge that all holders of standard first aid cards, as well as the holders of advanced cards, to renew the cards as soon as possible in order to be instructed in the latest methods of first aid.

Baned, secretary of the squad, said that changes in the first aid methods pertain to treatment of shock, control of bleeding, use of fluids instead of stimulants, new bandages, changes in the use of splints in cases of bone fracture. He also noted that the standard course may now be completed in 18 hours and that the advanced course takes only 12 hours. The new instructors will be available for instruction of classes under the new textbooks and methods, he said.

Lake County 4-H Clubs To Receive \$1,033 From State

4-H clubs throughout Lake county will receive more than \$1000 as their proportionate share of \$57,671 of state funds to be distributed from the Illinois State agricultural fund, according to a release from the office of Arnold P. Benson, state director of agriculture.

The money will be used for prizes and other uses in carrying out the work of the clubs. Benson complimented the 4-H clubs for the fine war-time work in food production.

Mr. and Mrs. C. E. Hennings returned home Saturday after three months vacation in California.

More Than 400 Names Signed to School Petition

**Board Meets Tonight To Set
Election Machinery In
Motion**

Antioch's plans for an addition to the Antioch Grade school were one step forward this week when interested persons obtained more than 400 signers to a petition requesting the school board to hold a special election for the purpose of empowering the board to issue bonds to supply funds for the building of an addition to the present building.

A special meeting of the board will be held this evening to discuss the improvement further and to consult with Arthur Henninghauser, architect, and Stephen Chase, representative of Barkus and Kindred Bonding company. Present plans call for the election to be held sometime during the latter part of this month.

Richard Whitacre, principal of the school, said today that plans of the board in connection with the amount to be raised for the purpose would be examined closely in order to make sure that enough tax money would be available during the years to come so that the repayment of the bonds would not work a hardship on the taxpayers or on the school board in its work of maintaining the school. In this connection he said, "We must remember that we have to keep on running a school here, and payments to the bonding company in retiring the bonds to be issued must be low enough to leave adequate funds for the regular expenses of the school."

He said however that the low rates of interest offered by Kindred and Barkus (1½%) would be a factor in deciding just how much money the board can afford to spend for this purpose.

Public sentiment in regard to the planned improvement has been favorable in most cases, and it is believed that the voters will approve almost unanimously of the measure.

Funeral Services Are Held Wednesday for Mrs. Carrie Peterson

Dr. Thomas Pender of 1st Methodist church of Waukegan officiated at last rites for Mrs. Carrie Peterson, who passed away on Monday, March 4, after a lingering illness. The services were held at Strang's funeral home, Antioch.

Mrs. Peterson, a lifelong resident of Antioch before going to Waukegan to make her home with a daughter after the death of her husband, five years ago, was well known in the community, having been active in a good many organizations here for many years.

She was born in Oslo, Norway, April 6, 1876, the daughter of Einar and Annie Sundby. She came to this country at the age of sixteen, and had made her home in Antioch for 45 years prior to going to Waukegan.

Surviving are three sons, Einar and Norman of Antioch, and Nels of La Grange, three daughters, Mrs. Myrtle Black, Mrs. Agnes McCarthy and Mrs. Bertha Curlee, all of Waukegan. Three sisters, an brother and ten grandchildren also survive.

Interment was in Hillside cemetery.

Certificate of Service Replaces Lost Discharge Papers of War Veterans

Many veterans have lost their discharge papers and are disappointed to learn they cannot secure an exact duplicate.

Service Officer Arthur F. Reutlinger at American Legion Home, 501 W. Washington St., Waukegan, Ill., will assist veterans in filing for a "Certificate in lieu of lost Discharge," which is the only document the Army, Navy or Marine Corps will issue when the original discharge is lost or destroyed.

This "certificate" does not contain all the information given on the original, and for this reason veterans are urged to record discharges and make use of a certified copy when filing for various benefits.

Donald Bratrude, a freshman at Knox College, Galesburg, Ill., will play the part of "William" in a college play entitled "The Silver Cord," to be presented over WGIL (Dial 1400) Saturday, March 9, at 5 o'clock. Donald is the eldest son of Dr. and Mrs. A. P. Bratrude of Antioch.

Mr. and Mrs. Frank Wohlke returned home this week from a three months vacation in Los Angeles, California and Arizona.

Fire Prevention At The Airport

A new major problem for the fire prevention authorities has developed with the rapid growth of aviation. The Committee on Fire Prevention and Engineering Standards of the National Board of Fire Underwriters is conducting an intensive study of airport, fire prevention and safety to life in aviation.

A bulletin from the National Board states that the "recent expansion and expected rapid development in the field of civilian flying, together with the tremendous increase in scope of commercial aviation and facilities, call for a thorough review of the existing standards for construction of hangars and airport fire protection."

The most important phases of the study are to deal with the construction and protection of hangars and other fixed airport installations, crash fire fighting and rescue work, and the provisions for fire detection and extinguishing systems on aircraft. The task of the Fire Prevention Committee will be to assemble all available aviation fire safety data, edit and correlate it with a view to making available up-to-date and adequate standards to meet the minimum fire safety requirements of the several classes of airports.

Communities throughout the nation will be interested in this newest work of the National Board. Hundreds of airports will be constructed in the near future and every possible safety precaution should be included in the initial construction program.

The "Gimmies" Wreck

The government of New Zealand is seriously considering whether that country's free physician service will be continued.

The record of New Zealand's compulsory health insurance reveals that the cost of disability pensions and medical care benefits tripled between 1940 and 1945. The rise was due to increasing costs of various classes of benefits, as well as to the addition of new classes of medical benefits 1941 and 1942. Some types of benefits, namely permanent and temporary disability and maternity benefits, show a fairly constant cost level over the last few years. On the other hand, hospitalization, medical care and pharmaceutical, and supplement-

tary medical benefits have shown substantial increases almost every year since their inception.

This shows that New Zealand has been unable to keep the costs of operation of compulsory health insurance on an even keel, due to factors not strictly of a social nature. One of these is the human tendency to take advantage of benefits offered under a compulsory system; another is the political pressure for increases in rates and duration of benefits, as well as for increase in coverage. Both these factors are difficult to evaluate in terms of statistics, but they exist.

New Zealand has had compulsory health insurance since 1939, and in these years of trial its operation has become more costly with every year that passes.

This is something for America, now burdened with a Federal debt of nearly \$300 billion, to think about when it considers entering the field of socialized medicine.

Things One Remembers

By R. M. Hofer

I have just talked to an Oregon farmer who milks about 40 cows, who did raise about 100 head of beef annually, who did raise chickens and sell eggs, and who did raise 40 or 50 hogs a year as a by-product. He no longer raises the chickens or the hogs, and he is selling off all his beef cattle because the cost of feed and the price of those products is so out of line that they are not worth bothering with. This same farmer raised 100 acres of barley for stock and hog food for the past three years and could not afford to feed it to his animals because it was worth more as grain.

When I saw him at his ranch on this trip, he was almost in tears. His deep well electric pump had broken down and he had been held up for several days getting parts, and being asked questions as to whether it was essential. He told questioners that he had already lost a ton of milk which the public was clamoring for, and if that wasn't essential he didn't know what was. His milking machine was broken down and the dealer could not furnish him the bearings because he could not get them. So they had rustled up a couple of worn-out automobile bearings and got them into the machine to make it run temporarily. He said: "I wouldn't quit delivering milk to deprive the public of it, but if I could close down and shut milk off from the strikers, I'd do it in a minute."

This farmer is typical of thousands of small farmers over the nation. Their machinery and equipment is worn out; their automobiles are worn out; they can't hire labor except at wages beyond the prices they are allowed for their products, and yet they are expected to produce and keep the food rolling in while politics and labor warfare deprive the nation of a stable economy and the tools for production. We are going to pay dearly for such a policy before we are done.

THE TRUTH ABOUT HOME BUILDING in 1946

IT'S TIME VETERANS AND ALL CITIZENS WERE TOLD THE TRUTH ABOUT THE HOME BUILDING SITUATION.

The main bottleneck to home construction is production of materials and equipment.

No legislation, Presidential announcement, government control plan, or system can produce a single additional home until production of materials is speeded up.

Lumber Dealers and the Building Industry are eager to build homes for veterans and all citizens who need them. The reason few homes are being built is because materials are not being produced.

WHY?

1. Governed by OPA's war-time pricing formulas, it is still more profitable for lumber mills to make items for export—and the items formerly required for war use, than it is to make lumber usable in home construction.

2. OPA's war-time pricing formulas are still keeping thousands of small mills out of production.

3. OPA's enforcement policies have allowed the creation of a large black market in lumber which is moving outside of regular channels of trade.

4. OPA's slowness in adjusting mill ceiling prices on hardwood flooring, siding, millwork and plywood has contributed to the difficulties mills are having in securing necessary manpower.

With 400 brick and tile plants closed, it took 6 months for OPA to adjust prices. Now additional 125 plants have opened and production is up 35 per cent.

Clay sewer pipe, cast iron soil pipe and Gypsum board manufacturers have experienced a similar OPA delay in the granting of price adjustments to make increased production possible.

No amount of juggling with an insufficient supply will produce a single home more than can be built with material available.

The OPA can hardly hold present price ceilings when it has no control over volume of employment, labor wage rates, cashing of government bonds, and installment or credit expansion—BUT THE OPA CAN ACT AS A BLOCK TO RECONVERSION BY CLINGING TO UNREALISTIC WARTIME PRICE CEILINGS.

Unblock the production of materials caused by unrealistic wartime price controls and the building industry will build enough homes for veterans and all Americans!

ANY GOVERNMENT PROGRAM THAT DOES NOT FIRST REMOVE THE OBSTACLES BLOCKING PRODUCTION OF MATERIALS WILL SIMPLY ADD ADDITIONAL DIFFICULTIES TO THE PROBLEM FACING THE BUILDING INDUSTRY.

(By Marion Rigby, Librarian)

Ilka Chase brings her subtle wit to the glamorous dressmaking business in her new novel, "I Love Miss Tilli Bean." When Tilli's mother, an attractive Quaker widow, falls in love with a romantic Italian, he takes them back to Italy with him. The Beans travel a long road from their Quaker beginnings to find happiness and a career.

"Mrs. Palmer's Honey," by Fannie Cook, tells, in a warm and understanding novel, the struggles of the Negro for social and economic opportunity. The central character, Honey Hoop, is human and appealing and her transition from domestic servant to union member and war worker is dramatic and timely.

Eddie Rickenbacker is excellent biography material. His exciting career includes dare-devil flying in World War I, automobile racing, commercial aviation, and numerous escapes from death. Hans Christian Anderson, who shared Rickenbacker's last exploit, tells the story from boyhood to those terrible days when they drifted on a fragile raft in the Pacific.

Rudyard Kipling, Trumpeter of the

Empire and the man who first portrayed the wonders and terror of India, is the subject of an new biography by Hilton Brown. Kipling, who wrote enchanting tales for children and poems that are a permanent part of English literature, is described as a man whose character was as many sided and brilliant as his writings.

FOR

County Judge

The heaviest work of the County Court in the past has been the determination and judgment in juvenile and domestic relation petitions. Mr. Bills has given eight years as Assistant State's Attorney to the exclusive handling of all of these problems including those of mental cases which require considerate, kindly and understanding treatment. Many of these youths who appear before this Court as juvenile dependents and delinquents, by proper handling, can be saved from a life of crime. He handled these matters for eight years during the troublesome depression times when these cares reached an all time high in this County.

Mr. Bills' record in this Court is one to which he proudly points and to which he most sincerely invites the most minute inspection. Do not experiment with this Court. It requires kindly understanding and not harsh treatment. Mr. Bills by training, experience and temperament is eminently qualified.

Mr. Bills is the only candidate running for County Judge who has had and is having actual experience as a judge in a court of record. During the past week he has been sitting in the Circuit Court of Cook County presiding as trial judge in important jury cases.

BERNARD J. JURON

REPUBLICAN CANDIDATE FOR

PROBATE JUDGE

(Excerpt from Waukegan News-Sun—January 18, 1944)
Another race for Lake County office in this year's election began shaping up . . . with announcements today for Probate Judge by Bernard J. Juron. . . Juron, also a past president of the county bar, has practiced law 26 years, recently in Waukegan alone, although he formerly practiced in Chicago and for many years maintained offices in both Waukegan and Chicago. He moved almost 26 years ago to Round Lake, where he and Mrs. Juron and their 9-year-old son still live.

While he has had an extensive probate practice, he probably has become best known for his work representing cities and villages as municipal attorney.

He is former city attorney of Highwood, Winthrop Harbor village attorney, Round Lake village attorney, Lake Villa village attorney, Fox Lake village attorney and Waukegan fire district attorney.

He attracted wide attention for his work while city attorney of Highwood in the city's successful fight to close a tavern within 100 feet of a church.

Juron also served 12 years as a member of the Lake County Republican central committee, and 12 years as Avon Township justice of the peace. He now is vice president of the new Lake County School Survey Committee, a non-political education post.

He was first president of the Grayslake Lions Club and is residing president of the Lake County Shrine Club. He also holds memberships in the Waukegan Elks Lodge and numerous other civic and fraternal organizations.

Chicago and Northern Illinois . . .

...an INTERNATIONAL market

The inherent manufacturing and distributing advantages of Chicago and Northern Illinois have brought recognition to this area as a great international marketing center.

For years the Middle West has been a leader in the production of goods for export. Chicago and Northern Illinois—hub of the nation's population, industry, raw materials, transportation and agriculture—provides unrivaled export and import facilities. Today more than a fifth of the 10,000 manufacturing firms in Chicago and Northern Illinois engage in foreign trade, producing a variety of merchandise to satisfy almost any demand from any part of the world.

Ten thousand miles of inland waterways serve this area. Transatlantic vessels may come direct to Chicago and other Lake Michigan ports via the St. Lawrence and the Great Lakes. The Illinois deep waterway provides a direct link with the Gulf of Mexico. Current developments in international air travel designate Chicago as the great central terminal for direct routes to the Orient, Europe, South America, Africa, and the Near East. By rail, the area is connected with every important seaport in this country and in Canada.

Location in Chicago and Northern Illinois facilitates expansion

of business to reach world-wide markets. Here, expert guidance is available in conducting export and import business from a score of service agencies—banks with foreign departments, international freight forwarders, combination export managers, foreign trade counselors, transportation representatives, foreign consulates, customs officials, foreign trade departments of commercial associations, and others.

Whether an industry's sales plans encompass the central states, the nation or foreign markets, the Chicago and Northern Illinois region offers more efficient distribution to more customers than any other industrial area in the nation.

We will gladly assist in making factual and confidential studies of this area and the possibilities it holds for any particular industry. This service is without charge.

Industries locating in this area have these outstanding advantages
Railroad Center of the United States • World Airport • Inland Waterways • Geographical Center of U. S. Population • Great Financial Center • The "Great Central Market" • Food Producing and Processing Center • Leader in Iron and Steel Manufacturing • Good Labor Relations Record • 2,500,000 Kilowatts of Power • Tremendous Coal Reserves • Abundant Gas and Oil • Good Government • Good Living
